Avery Hopper Awarded Army Commendation

Staff Sergeant Avery G. Hopper, son of Mr. and Mrs. Eddie B. Hopper, was awarded the Army Commendation Medal Oct. 2, for heroism on Sept. 13, 1964, while assigned to Company C, 11th Engineer Battalion in Korea.

In the early morning hours on Sept. 13, last year he voluntarily risked his life to help rescue twenty villagers who were trapped by rapidly rising flood waters in Sin Chon, Korea.

With complete disregard to his own safety Sergeant Hopper crossed a swiftly flowing stream to carry several women and children to safety. On one return trip he was swept down stream for approximately 500 yards and narrowly escaped drowning. Despite his exhaustion and the constant dangers presented by the rising waters and collapsing houses, he returned to the village and carried several more children to safety by means of a rope thrown across the stream. "Sergeant Hopper's heroism is the highest tradition of the military service and reflects great credit upon himself and the United States Army," according to his commander.

Sergeant Hopper is now stationed at Ft. Hood, returning to the states in July of this year. He is married and has two boys.

"Our Concern for Safe Driving Practices" was the theme for a program on traffic safety presented in a panel discussion for members of the Woman's Literary Club Friday afternoon.

The panel included Mrs. Dick Maberry, program director, Mrs. C. F. Cook and Mrs. C. T. Murrell. Mrs. Maberry discussed the need for drivers refreshing their memory on the traffic laws and obeying them. Mrs. Cook gave suggestions on safer driving on highways and freeways. Mrs. Murrell, used information obtained through the Hamlin Police Department concerning driving in Hamlin, and pointed out that speeding, especially in school zones, was a local hazard. Also, she gave instructions on the right way to make a U turn at an intersection. Drivers are to stay in the lane next to the center strip and after all traffic is clear can make the turn. This permits all traffic to continue while the person is waiting to make a U turn. She said when a driver pulls to the far right and waits in the intersection, it stops traffic from other directions.

Mrs. Richard Young Jr. was hostess. Mrs. A. A. Hackley presided.

FAIRVIEW NEWS

News gets scarcer and scarcer out this way, not even any weather news, every thing still green this 22nd day of November. Most of the trees know that it is winter and have shedded their leaves, even the mesquites are trying to lose theirs, they are usually hard to kill, but they know that they have worn their summer clothes long enough. Some morning we will wake up and it be freezing cold. Won't we all thing we are going to freeze to death?

Last week was a very busy one for Mrs. Kenneth Leverett, as she played the piano for the Central Avenue Baptist Revival, twice a day. That in itself is a pretty good job, but considering that she has three babies to get ready each time, it made it really a labor of love for her to have undertaken it.

I was privileged to attend the revival two nights and they certainly had some good singing and good old fashioned gospel preaching. Rev. W. C. Moore, pastor of Calvary Baptist Church, in Stamford.

Am just wondering how many of our people are sick this morning, for we all carried our lunch with us to church, Sunday morning, and had a good old Thanksgiving "dinner." Not a lunch, there was too much food present to call it that, everyone tried to get around to taste it all, so we don't know if any are sick or not this morning. Anyway, we had a wonderful time, makes us prouder and prouder of our little kitchen. This took the place of our family night meeting for November.

Mr. and Mrs. M. S. Johnson, our good Nazarene friends from Hamlin, came out after attending their church, and had lunch with us. We are always glad to have them.

Mr. and Mrs. Henry took off again last week visiting. Wednesday night, their son, Mr. and Mrs. W. C. Henry and Jo of Elgin, came and stayed until Friday morning when they all went to Higgins, to visit with the son's daughter, Mr. and Mrs. Mack Sansing and little daughters. They re-

turned Sunday, Mrs. Henry reported a wonderful time, telling about the deer and wild turkeys coming right up to the house, out on the ranch, where we presumed that Mr. Sansing's parents lived. Higgins is up in the northern part of Texas, only seven miles from the border of Oklahoma. Sonny Joiner, of San Antonio, Elmer Joiner's brother, called last Friday night and reported that he had come by Thursday late, not finding anyone at home, went on. Mr. Joiner had surgery several weeks ago, for a diaphragm hernia, has been off work since, but will return to his job this Monday morning. He is employed in the finance department, at Brooks Air Force Base, as a civil service worker. It took him longer to recover than he had anticipated, but he is doing well and glad it is over.

The sparrows around our house lost several of their numbers Saturday, for a little grandson, Ronald Joiner, spent the day with us and having received a BB gun recently for his birthday, he really made war on them all day. They are a pesky nuisance and it is always good to get rid of them.

Rev. Kenneth Leverett, Woodrow Goodwin and Winson Gray, went to Pleasant Grove Baptist Church, south of Anson, Sunday afternoon where they attended the joint meeting of all the churches in the Association, that had met to discuss the pro and cons of the Double Mountain Area Program, which is headed by Rev. L. L. Trott. They came feeling like the small churches were an important part of the work.

Junior High Class To Name Good Citizen Each Week

In order to promote the spirit of good citizenship and consideration for other students, 7A class of Hamlin Junior High School has begun the selection of a "Good Citizen" each week, who is selected by secret ballot by officers of the class.

The class plans to reward these persons with certificates

or a party. Meanwhile, their names are prominently displayed on the class bulletin board. The teacher is Mrs. Sam Ferguson Jr.

Rhonda Pritchard was chosen for the week of Nov. 1-5. She is the daughter of Mr. and Mrs. Leroy Pritchard. She is 12 years old and plays the cornet in the junior high band. Her hobby is reading.

Debra Brown was the good citizen for the week of Nov. 8-12. Daughter of Mr. and Mrs. James W. Brown, her hobby is drawing. She plays the clarinet in the junior high band and is an active member of the Neinda Baptist Church.

YEARS AGO...

FIFTY YEARS AGO
Nov. 19, 1915
One of the most beautiful buildings of Hamlin at present is the Mutual Theater just finished by D. J. Payne and H. B. Foreman. The doors were thrown open last Friday night for the first time to the public. It was a common thing to hear people speak in praise of the artistic finish of the interior of the building.

A quartet of cotton pickers got into the bad Saturday night. Two fellows were held up near Orient depot by John T. McClure and Roy Sessions both of Rising Star, Texas. They secured about \$5 from one fellow and the other got a way and gave the alarm. McClure and Sessions were arrested and placed in the lockup but escaped.

The Ladies' Minstral played to a packed house Thursday night with Prof. F. E. Payden of Dallas as director. Judging from the applause and the comments, every one enjoyed the entertainment to the fullest extent. One could hardly believe that burnt cork so completely disguise the faces we see everyday til they were almost unrecognizable.

Once more the horse is before public and the battle which waged around him when

the motor first appeared on the industrial horizon is to be repeated. A new ruling of the Post Office Dept. provides that house drawn vehicles must give way to motor cars in rural delivery routes.

For fifteen years J. Starr Inzer had been getting out of his automobiles and leaving the keys. So he did last Friday night, at the curb just north of his store. About 11:00 o'clock he noticed his car was gone. It was not heard of til Thursday when the insurance company reported that they had located a car that fit in with all information. A man was sent to Brownwood to bring the car back. Who got it? That's your guess. Maybe someone just wanted to reach Brownwood.

Hamlin's South Lake last week was supplied with a big shipment of small fish from the San Angelo federal fish hatchery, it was announced by J. C. Cauble, caretaker of the lake.

Included in the shipment placed in the nearly-full lake were 1,500 channel cat, 15,000 beam and 3,500 black bass fingerlings.

One of the largest, oldest and most-buttressed rattlesnakes taken in these parts was brought to town Sunday afternoon by Martin E. Smith, who killed the coiler on the Dr. W. C. Weir place, north of town. The serpent was five feet and eight inches long, it weighed about six pounds. It had 28 buttons or rattles.

Mrs. Brad Rowland was seriously and painfully injured, and her husband, assistant postmaster at Hamlin, also sustained lacerations and bruises Saturday morning about 9:00 o'clock when their car turned over several times between Whitewright and McKinney in Northeast Texas. How to take life (editorial)

Take it just as though it was ... as it is ... an earnest, was ... as it is ... an earnest. Take it as though you were born to the task of performing a merry part in it ... as though the world awaited your coming. Take it as though it was a great opportunity to do and achieve, to carry forward great and good schemes, to help and cheer a suffering, weary, broken-hearted brother.

Now and then a man stands aside from the crowd, labors earnestly, steadfastly, confidently and straightway becomes famous for wisdom, intellect, skill, greatness of some sort. The world wonders, admires, idolizes, and it only illustrates what others may do if they take hold of life with a purpose.

The Pied Pipers closed out the football season here Friday night with a thrilling finish by edging the Stamford Bulldogs 8-7 in a tremendous defensive battle.

REST

A day of play has tired this little one, but now sleep will bring about the needed rest. This is the time for restoring energies, and breaks the day's pace. The Lord set aside a day for rest and worship. This day allows us to be in the Lord's house and renews our energies for the week to come.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Has popularity spoiled Chrysler for 1966? Obviously not.

We're easier to deal with than ever.

CHRYSLER '66

Success like last year's could make some people complacent. Not Chrysler. The '66 is more beautiful, more powerful, more tempting than ever. And our entire Newport series is priced just a few dollars a month more than the most popular smaller cars, comparably equipped.

So stop in. Move up to Chrysler. It's easy.

SYLVESTER NEWS...

By Mrs. R. M. Babb
Here's hoping every one has a wonderful Thanksgiving, and never stop remembering the one we are to thank for all the many, many blessings we receive each day.

Mr. and Mrs. Ross Douglass had in their home recently and I mean all at one time, Mr. and Mrs. Levora McElvye, Jr. and family, Don Douglass and family all of Big Springs, Gary and Paula Douglass of Merkel, Kenneth Douglass and family of Hamlin, Micki Douglass and Don Wright of Fort Stockton, Jimmy McElvye and family of Abilene.

Mrs. Gladys Williams is enjoying her wheel chair again after being without it while it was being repaired in Abilene. Just luck she had her old one.

Mrs. W. B. Brown and Mrs. Forest Tetteller motored to Lubbock on Friday to attend a Postal Convention. Mrs. Tetteller is Postmaster in Roby and Mrs. Brown is, of course, our Postmaster here.

Mr. George Parsons of Roby was over on Friday catching up on all the local people. He has lived in or around Sylvester since 1906, so he is interested even though he now lives in Roby.

Mrs. C. B. Lambert spent several days in Hamlin Hospital but is home doing fine.

Mrs. A. C. Smith returned over the weekend from Pecos where she has been attending

to business for more days than Don wants to talk about. I don't think Don likes his own cooking!

Word was received over the weekend that Micki Douglass is in the Hospital in Ft. Stockton but was doing much better.

Mrs. E. F. Lawlis and Mrs. Allie Ward are still in Hamlin Hospital at this writing but hope both will be out real soon.

Mrs. J. J. Nickless is in Hendrick Memorial Hospital in Abilene at this time. We hope she will be feeling fine real soon.

The Homer Pursleys are enjoying their new home, they have been moved for a couple of weeks.

Mrs. Delia Beard of Ft. Worth visited for a couple of weeks with her sister, Mrs. E. P. Harris and Pearl Johnson and was accompanied home by Ernest Kiser for the Thanksgiving Holidays.

Mrs. May Hurst and Mrs. Ezell Whitten attended the Singing at Hamlin Sunday afternoon.

Mrs. Carrol Green has been real sick with a virus but is better.

Several members of the Baptist Church attended the Workers Conference at McCaulley on Monday night.

Many friends of Mrs. Joyce Cook attended a pink and blue shower in her honor on Monday afternoon at the Methodist Church basement.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

Austin. — A facelift of the Texas roadside scene is about to take place. Gov. John Connally has pledged full cooperation with the Federal government in connection with the new Highway Beautification Act. A legislative council committee here now is considering the legal steps necessary in Texas to enforce provisions of the Act. This to prevent loss of U. S. funds.

State Highway Engineer D. C. Greer is outlining an initial plan of compliance with the Federal law which proposes control of scenery-spoiling billboards and junkyards and general scenic enhancement along 17,589 miles of Texas, Federal-Aid highways alone.

Texas Highway Department, Greer reports, already is taking steps to put into effect an expanded program of landscaping and beautification at a cost of about \$10,000,000. Program will cover a two-year period and will include planting projects, rest areas, irrigation systems and possible scenic easements at selected overlooks and natural beauty spots.

Greer anticipates Texas will get about \$6,000,000 a year in federal funds for this work.

He has called for a complete inventory of junkyards and large outdoor advertising signs and devices within 660 feet of highways.

Some of the junkyards, Greer emphasized, will be screened by plantings, fences and other means in the near future.

Meanwhile, information from the inventories will be used in studies of needed state legislation, including zoning of industrial and commercial areas along the state highway system as called for in the beautification act.

Interest Rates Studied — State Banking Commissioner J. M. Falkner, on the heels of a new policy announced by U. S. Comptroller of the Currency James J. Saxon, has asked Atty. Gen. Waggoner Carr whether state banks may charge the same interest rates as loan companies.

Saxon said national banks in Texas may charge the same interest as loan companies regulated by the state. So Falkner wants to know if the State Banking Department should let state banks exceed the constitutional interest limit of 10 per cent.

Texas law authorized small loan companies to make loans with rates scaled from \$1 interest on a \$5 loan to 17 per cent for loans up to \$1,500.

Governor Connally vetoed a bill earlier this year authorizing banks to raise their rates to 17% per \$100 on loans between \$1,500 and \$5,000 a year.

Question now is whether state banks may charge the same interest rates as loan companies and national banks in Texas.

Attorney General Rules — Attorney General Carr said accounts payable to the State Building Commission, incurred under an inter-agency contract with the Mental Health and Mental Retardation Departments, can be deposited to the Building Commission. Proceeds may be deposited as professional fees and services and travel expense.

Carr also ruled that: A County Treasurer is entitled to receive compensation from additional duties of handling levee improvement districts' funds within his county.

Counties are responsible for the hospital care and treatment of prisoners in the custody of the sheriff.

Interest earned on investment of bond proceeds, not needed immediately for a voted purpose, may be placed in the proper interest and sinking funds, at the discretion of the Board of Trustees of the school districts.

Salt Water Disposal — Ector County oil operators have agreed to get rid of salt water disposal pits within three years.

County officials had requested Texas Railroad Commission to enter no-pit order for 40 Ector fields.

Courts Speak — Houston Independent School District must pay its \$82,899 phone

bill State Supreme Court ruled. Court held that the school must pay Southwestern Bell Telephone Company full business rate of \$16.50 per month for service rather than residential rate of \$5.90 it had tried to settle for under a 1911 city ordinance.

Court refused to hear a suit alleging malpractice against a former Littlefield physician. Woman attempting to bring suit claimed the doctor left a gauze pad in an incision during an appendectomy.

Court of Criminal Appeals for second time upheld murder conviction of a Midland man, Marvin Clewis, who received a 25-year sentence for slaying his wife.

Criminal Code Reviewed — Texas' much-maligned new code of criminal procedure was defended by State Bar official, Fred Erisman of Longview, at a three-day institute to study its provisions here.

Erisman said code brings Texas criminal statutes in line with modern-day decisions of U. S. Supreme Court. It means little to law enforcement, he maintained, to obtain convictions, only to have Supreme Court set the defendant free because of unconstitutional procedures.

Prison Unit Named — Texas Board of Corrections honored longtime member H. H. Coffield of Rockdale by naming the new unit in Anderson County for him.

Coffield has served on the board 16 years, eight years as chairman.

Board also authorized buying a new \$190,000 airplane. Director George Beto reported that the plane already owned by the prison system isn't adequate for returning parole violators from other states.

Securities Sales Hit Record — Securities approved for sale in Texas reached an all-time high of \$283,300,000 during fiscal year ended, according to University of Texas Bureau Research.

Total was \$66,900,000 or 31 per cent over fiscal 1964, despite a major market upset during 1965.

Activity, Bureau predicts, will "continue to be strong so long as the economy continues to expand."

Postmaster Gives Tips on Mailing

"Last Christmas the post office handled more mail than ever before, yet the operation was most efficient in history," Postmaster Perry Sparks said today.

Nationally about 99 per cent of the Christmas mail reached its destination before Christmas Eve.

Nationally about 99 per cent of the Christmas mail reached its destination before Christmas Eve.

ZIP Code use and the cooperation of the public in mailing early were the main reasons for our success. With the same or better cooperation this year, we expect to handle an even greater volume of mail with less effort than during the 1964 Christmas rush."

Mr. Sparks had advice which would help mailers prepare for the upcoming mailing season.

A. Up date last year's address list and include ZIP Codes. The phone book is usually a good source for local addresses. (Postmaster ... if applicable mention that local ZIP Codes are listed in the yellow pages of your phone book.

B. Prepare a gift list as soon as possible. Shop early to take advantage of full stocks. Be sure to have on hand enough shipping materials; boxes, tape, wrapping paper, etc.

C. Use first class postage on greeting cards. This assures their being forwarded if the recipient has moved or that undeliverable cards will be returned if a return address is on the envelope.

The postmaster emphasized again this year that poorly wrapped and loosely packed cartons are the major cause of parcel post damage. He urged that cartons be packed tightly by using stuffing material to fill up the empty space around the merchandise. He also asked that all mailers make an effort to address their letters, cards and packages as clearly as possible and that they make every attempt to mail often, not waiting until the last minute to deposit all their gifts and greetings.

J. G. Pluto, 87, Dies In San Antonio

Joseph Graves Pluto, 87, former resident of Hamlin for 27 years, died Nov. 16 in San Antonio where he had lived for the past 35 years. Mr. Pluto suffered a heart attack Nov. 13.

He was a brother-in-law of F. F. Fairley and uncle of Mrs. Weldon Johnson, both of Hamlin.

Mr. and Mrs. Pluto celebrated their 65th wedding anniversary on June 16.

Survivors include his wife; two daughters, Mrs. Leon Howell, Mrs. D. Clinton Walker; three grandchildren; four great-grandchildren; numerous nieces and nephews.

Services were held at St. Margaret Mary's Catholic Church.

William Henry Harrison died on April 4, 1841, just one month after he was inaugurated president of the United States.

Attend Farm Bureau Meeting

The 32nd annual Texas Farm Bureau Convention was held in Dallas Nov. 14-17. Attending from Jones County were Mr. and Mrs. M. E. Carothers, Mr. and Mrs. G. E. Steen, Mr. and Mrs. Marvin Adcock, and Mrs. Harris

Wright. Resolutions adopted at the County Convention Oct. 9, were considered at the State Convention and many were adopted to be sent on to the National Convention in Chicago in Dec.

COLD WEATHER DRIVING EXPERT PREPARES FOR WINTER

Why more motorists switch to the Tiger when it gets cold.

Many cars that ran just fine all summer get into trouble when ear-muff time rolls around—stalling at stoplights and coughing and chugging halfway into town.

That's when a lot of people switch to the Tiger. Winter-formula Enco Extra gasoline is blended to match the weather conditions in your area—including a special

additive to help guard against icing. Result: easier starting, faster warm-up and a lot less worry about stalling.

You'll like the way new Enco Extra behaves on the open road, too. It's the High-energy gasoline with the: (1) cleaning power; (2) firing power; (3) octane power to help preserve the performance of new

cars and restore lost power and mileage to many older cars.

Switch to the Tiger and get that nice warm feeling. **Happy Motoring!**

STUDENTS LEARN ABOUT THE TELEPHONE — Through the teaching aids furnished by Southwestern Bell Telephone Co., students in primary and elementary schools here are learning the history of the telephone, how it works, how to use it, and proper telephone manners. The students get to use special instruments that let them hear themselves and each other. Taking part in

the demonstration are second grade students, David Moore, on telephone, Alan Steele, David Garcia, Sherrie Carter, Vickie Lee, and Debra Jay, on other phone. Other primary pupils used the teaching aid last week and then it was to be used in the elementary building. The study includes booklets, film strips, and the instruments. The two schools use it about 10 days.

Roy Arledge Named to House Interim Committee

Austin — Speaker Ben Barnes today announced the appointment of Representative Roy Arledge of Stamford to serve as a member of the House interim committee to investigate and study the operations of livestock auction companies with respect to their compliance with state and federal statutes.

Mr. Arledge has served as a Member of the House since 1963 and is now a member of the standing committees on Livestock and Stock Raising; Motor Traffic; Oil, Gas and Mining; State Affairs; and Chairman of Interstate Cooperation. In making the appointment Speaker Barnes said: "I am confident that with Mr. Arledge's experience on various committees, and particularly Livestock and Stock Raising, he will contribute a great deal to carrying its work to a successful conclusion."

At one time the Alamo was claimed by the City of San Antonio, the Roman Catholic Church and the U. S. Government.

Sweetwater Manufacturing Firm Seeking Employees from Area

Sweetwater Manufacturing Company, Inc. in Sweetwater has widened the area for employment contact to include Jones, Fisher, Mitchell, Scurry and Taylor Counties in the current effort to increase employment at the Nolan County plant. Many from those counties already work at the shirt making firm.

A coupon elsewhere in today's paper is available to register those people who desire to be considered for employment at the firm. Readers are urged to utilize the coupon for themselves, if possible, or to pass it to their friends and neighbors whom they think might be interested in garment making employment.

More than 470 people work at the manufacturing company, making mens and boys sport shirts. The executives of the firm have expressed their pleasure at production at the plant, stating that the relationship with their employees has been a compliment to the West Texas area.

In addition to the widening of hiring effort to five additional counties, the personnel department at the plant is reviewing the list of those who have previously worked at the plant. Those people are being considered for re-employment.

Previous experience in unnecessary, since the firm will

train women in machine operation or other skills necessary in the manufacture of men's and boys sport shirts.

Any interested ladies who had registered for employment consideration earlier and for some reason or other were not called are asked to fill out the coupon and return it to the post office box listed.

Sweetwater Manufacturing was established in Sweetwater in February of 1965. It was the second project of the Sweetwater Industrial Foundation. The Foundation has a membership of more than 700 Sweetwater businessmen and women. It is administered through Sweetwater Chamber of Commerce.
